

PERSONAL PROFILE

I am a Designer / Developer located in Virginia Beach with a Bs in Computer Science from ECPI University .

My passion is to create bold and captivating designs to help bring company's brands to life and solve problems. With a love for Digital Art, Photography, and Coding I have learned many related skills to help me knockout any project thrown at me. Whether it's User Research, Wireframing, Hi-Fidelity Mockups, T-shirt or Logo design or Coding different animations or full websites. I solve problems and enjoy making things look cool while doing it.
